Reduce Dental Anxiety at the Covent Garden D

If the thought of visiting the dentist breaks you out into a cold sweat, then this could be just the remedy to keep such dental phobia at bay. The experts at Covent Garden Dental Spa are offering hypnotherapy to help calm your mind, overcome anxiety and prevent strong gag reflexes, teeth grinding and even smoking cessation. Evidence from several clinical and neurological research methods show hypnosis can be highly positive and successful to improve the dental experience for patients.

As well as offering hypnotherapy in its luxurious, comfortable and relaxed yet professional practice, the Covent Garden Dental Spa also offers a wide range of dental treatments including general dentistry, teeth whitening, Invisalign, lingual braces, implants and beautiful smile make-overs.
